

Assessment Criteria and Scoring Methodology for PHAB EOI For Major Grants over £15,000

Assessment Criteria and Scoring Methodology

Each Grant Application will be scored against the Assessment Criteria using the scoring mechanism described.

The Assessment Criteria are comprised of 10 scored questions corresponding to the Grant Application. Each question will be marked out of 3. All questions are weighted equally.

Score Assessment *

- 0 - Poor response
- 1 - Fair response
- 2 - Good response
- 3 - Excellent response

*the assessment criteria may change slightly per question, but the scoring methodology remains the same

Total available marks are out of 30

Calculation of Points

Grant applications will be awarded points based on the following:

- Project objectives aligned to the Essex Wellbeing, Public Health and Communities Plan
- Demonstrated need of project
- Grant applications that have been co-designed and co- developed with local communities
- Demonstrated sustainability
- Grant Applications from areas of deprivation or underserved communities
- Demonstrated project inclusivity
- Evaluation
- Project approach clearly identified
- Major factors that can prevent future illness identified
- Project Value for money

These measures align with the grant criteria shared with organisations. Assessors score will not be shared however feedback is available on request.
